

# Instructor-only Functionality in Classic

Last Modified on 12/13/2023 2:35 pm EST

The Norton Ebook Reader has functionality that is exclusive to instructors. This page details the Norton Ebook Reader tools that allow instructors to share highlights and annotations with students, and to monitor class-wide reading activity.

Hide All Answers

## Can I share my highlights and annotations with my students?

**Sharing highlights:** Use your cursor to highlight the desired text and the tool palette will appear. Select the green color and the highlighted text will be shared with your class.

Psychological Science, Fifth Edition

page 131

# 4 Consciousness

**IMAGINE WAKING UP IN THE HOSPITAL** and the only thing you can move is your eyelids. You cannot talk or indicate that you are in pain. Finally, someone notices that you can voluntarily blink, and together you work out a system of communication. In 2000, when he was 16 years old, this situation happened to Erik Ramsey after his brain stem was damaged in a car accident. Since then, Ramsey has suffered from locked-in syndrome. In this rare condition, all or nearly all of a person's voluntary muscles are paralyzed. Even when Ramsey is awake and alert, he cannot communicate with those around him except by moving his eyes up and down (FIGURE 4.1).

As a psychological state, locked-in syndrome has been compared to being buried alive. Imagine that you see all the sights around you and hear every noise, but you cannot respond physically to these sights and noises. Imagine that you can feel every itch, but you cannot scratch yourself or move to gain relief. Hard as it is to imagine, Erik was lucky in that he was able to blink. Other such patients have no voluntary muscle movement. They have often been mistakenly thought to be in a coma for years, receiving no pain medication or socially appropriate communication.

Recent scientific advances have raised the possibility that Ramsey and patients like him will be able to communicate. That is, we might be able to "read" brain activity in real time. Communication is one of the primary goals of researchers who, in 2007, planted electrodes in the

page 132

**Note:** In order for students to view shared highlights and annotations, they need to be enrolled in your Student Set.

## Can I monitor student and class-wide reading activity?

Instructors can monitor activity in three ways:

1. **Individual student reading activity:** After creating a Student Set and sharing the ID with students, you will have access to each student's reading progress.
2. **Class-wide averages for reading time per chapter:** In the Select a Student Set dropdown menu on your ebook homepage, select the Student Set for which you want to view reading time. Class-wide reading averages will then populate across from each chapter link. In the Active Students column, you'll see the number of students in your Student Set who have accessed the chapter. In the Avg. Time Spent (MM:SS) column, you'll see the average time spent for students who have accessed the chapter.

Add Member Save

In the Role dropdown menu, select the permission level you would like to give the person who you are adding to your Student Set. For a comparison of the four different roles, please see the Overview of Role Permissions section below. Type in the person's email address and click the Lookup button.

- If adding a co-instructor, the person you are adding must have a Norton account with full instructor privileges. For help with this, please contact the [W.W. Norton Service Desk](#).
- If you are adding a scoring TA or TA, this person does not need to have a pre-existing

Norton account. In the case that they do not have a Norton account, we will send them an email with log in instructions once you add them to your Student Set.

- c. **Note:** If you are adding a student as a scoring TA or TA, you are changing their permissions in all Norton products. If they are enrolled as a student in another Student Set, please have them register with a **separate email address** when logging in as a TA or a scoring TA.
- d. Once you give an account a specific level of permission in your Student Set, you cannot downgrade that account to a lower permission level. For example, if you give an account scoring TA access, you cannot downgrade that account to TA access.

The screenshot shows the 'Update Student Set 15119' interface. The 'General Information' section includes fields for Title, School Name, Start Date, and End Date. The 'Assignments and Settings' section shows a table with Product (InQuizitive) and Assignments (16). The 'Members' section has a 'Students' list with columns for Name (email) and School ID. An 'Add New Member to Student Set' modal is open, showing a Role dropdown set to 'Scoring Teaching Assistant', an Email Address field with 'iqsta@wwnorton.edu', and a 'Lookup' button. Red arrows point to the Role dropdown, the Email Address field, and the 'Lookup' button. The modal also has 'Cancel' and 'Add' buttons. The background interface includes a 'Save' button at the bottom right and a 'Chapter 8 Thinking, Language, and Intelligence' header at the bottom.
